DUBOIS
DATA SCIENCE FOR EVERYONE

SYMPOSIUM ON UNDERGRADUATE DATA SCIENCE EDUCATION

Experience a new cross-cutting introductory undergraduate curriculum in Data Science

Participants will have the opportunity to:

- Engage hands-on with a computing focused course that investigates problems in the context of Behavioral and Social Science applications
- Brainstorm, adapt and integrate new Data Science curriculum modules. Learn what teaching Data Science means!
- Share innovations in Data Science Education happening at their home campus

May 18 - 20, 2026
