SYMPOSIUM ON UNDERGRADUATE DATA SCIENCE EDUCATION

Experience a new cross-cutting introductory undergraduate curriculum in Data Science

Participants will have the opportunity to:

- Engage hands-on with a computing focused course that investigates problems in the context of Behavioral and Social Sicence applications
- Remix, adapt and integrate the curriculum modules into how they teach data Science
- Share innovations in Data Science Education happening at their home campus

📅 May 18 - 20, 2026

📍 Auburn University Dixon Conference Center Auburn, AL
